Mr. McGilvray Announces.

In this issue of The Clipper appears the announcement of Hon. W. A. McGilvray, of Beat 17, for Circuit Clerk. He is one of the early citizens of East Coffee, casting his lot at Enterprise when that town was a village. He is public spirited, has helped in the growth of that section, and is a fine fellow. He has always taken an active interest in public matters, but this is the first time he ever ran for office.

Mr. McGilvray has followed clerical pursuits all his life and is splendidly equipped for the position. He is popular and starts in the race with good support and will be a formidable candidate.

HENDERSON OUT OF GOVERNOR RACE.

Pike County Comes Out In Very Strong Statement, Which Gives Reasons For Action.

Col. Charles Henderson of Pike County, a popular and formidable candidate for Governor, the first of last week announced his withdrawal from the race. His statement was as follows:

The statement as given to The Advertiser Tuesday morning is as follows: "I am not a candidate for governor. When I made the announcement of my candidacy, I was assured of the neutral attitude of certain powerful influences and was led to believe that the conservative principles for which I stood would be accepted by a majority of the people of Alabama."

"In the recent amendment contest, I stood against the adoption of the proposed constitutional amendment because I believed its adoption would have infringed on certain principles of free government. We contended in that campaign that the question of saloons or no saloons did not enter into that contest. Subsequent developments, however, have clearly shown me that the allied interests that financed the amendment campaign are demanding compensation for the part they took and the contributions made, and are now making a fight for control of the executive and legislative branches of the state government."

"This is contrary to the position I took and the promises we made to the people."

"With the changed conditions, I am of the opinion that in the short time between now and the primary, I could not be successful in making my position clear to the people of the state; and, having come to this conclusion, it is due my friends that I advise them of my decision."

Charles Henderson.

It will be seen from the above that Col. Henderson feels that an attempt is being made by certain interests to reap profits and benefits from what took place last fall. It will be remembered that Col. Henderson is and has been a strong prohibitionist, as well as a believer in the railroads being made to treat the people fairly.

He said last fall in the amendment campaign that he favored prohibition, and now he calls a halt when it appears that efforts are being made to turn the State over to interests which are hostile to the welfare of the people and State.

Col. Henderson was president of the famous anti-amendment conference which stated the ball rolling to defeat the late amendment. He did perhaps as much as any one to bring about the defeat of the amendment, for he had a reputation for honor and patriotism that carried with it weight and influence.

It is said that Col. Henderson and many of his supporters will support Col. Mallory for Governor.

Our District Man.

Hon. E. P. Thomas, of Barbour,
is a candidate for lieutenant gov-

will.

Verily we will have some poli-

ton better than anything you get.

What the Test Shows.

The state of Alabama furnishes the farmers a service
they do not use enough—bulletins of what has been
found out about fertilizers by the State Chemists and
special agents of the agricultural department.

The special agents go from place to place and open
sacks of guano and take therefrom samples—the owners
of the guano have nothing to do with it—they cannot say
which sacks are to be opened. These samples are exam-
ined and analyzed by the State Chemists. Last year the
samples taken from fertilizers made by us showed much
higher commercial values than we stated they had. On
one brand it went several dollars more per ton. The
farmers got the benefit of this. Our goods were better
than the guaranteed analysis said that they were. If you
want to read about this, write the Commissioner of Agri-
culture at Montgomery for a free leaflet.

We intend to keep making high grade goods. We
have no old name or old reputation to sell our goods. We
sell them on the merit of what they have in them. We
want you to buy them this year. YOU CANNOT DO
BETTER.

PEOPLE IN A PANIC

Volcano In Costa Rica Causing Great Terror.

VILLAGERS IN FLIGHT

Port Limon, Costa Rica.—Villagers at the foot of the volcano Poas, now said to be in the most active eruption in its history, are fleeing for their lives. Streams of lava are flowing through fertile valleys, destroying towns and plantations. Rocks weighing 200 pounds have been hurled a distance of two miles from the crater. Villages within the zone reaching almost to the capital, San Jose, have been deserted by alarmed residents. In the town of La Ocheria, five kilometers from the foot of the volcano, rocks weighing 100 pounds crashed through residences. There has been loss of life on plantations nearest the volcano. The volcano gave plenty of warning and before the eruption began the villagers were in flight. In Cobanilla the house-tops. Scientists have set out from San Jose to visit the volcano.

A constant stream of refugees is arriving at San Jose, the nearest large town, 20 miles to the southeast of the volcano. Juanillo, lying to the southwest of the mountain; Sarcodon to the northwest, and La Laguna, to the northeast, are threatened with destruction, according to advice received here.

Thousands of inhabitants have fled to the high ground in the surrounding country and many camps have been thrown up in the Sierra de Tilaran mountains, where the villages are also crowded with the terror-stricken refugees.

Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectively assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

Go to your druggist today and get a bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 24 times as much as the five-cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

Are You Honest?

With your land when for the sake of saving a few dollars you use a fertilizer whose only recommendation is its analysis. It requires no special knowledge to mix materials to analyses. The value of a fertilizer lies in the materials used, so as not to over feed the plant at one time and starve at another. This is why Royster brands are so popular. Every ingredient has its particular work to do. Twenty-five years experience in making goods for Southern crops has enabled us to know what is required.

COFFEE DEMOCRATS ENDORSE KYLE E. PRICE.

The Following Resolutions Were Unanimously Passed By County Executive Committee.

Whereas, Hon. Kyle E. Price, of Coffee County, is a candidate for railroad Commissioner of Alabama, and

Whereas, Coffee County has never asked for a State office for any of its citizens, and

Whereas, we recognize in Hon. Kyle E. Price that fitness and ability that would enable him to discharge the duties of this office with credit to himself, and with fairness and satisfaction to all the people, and honor to his fellow citizens of coffee, and

Whereas, we feel a just pride and interest in his candidacy for this office, and desire his election to the same. Resolved:

1. That we heartily endorse the candidacy of our distinguished fellow citizen for Railroad Commissioner of Alabama.
2. That we recommend him to the people of Alabama as a worthy and honorable gentleman, and well qualified for the office to which he aspires.
3. That we respectfully petition and urge the people of Alabama to support and elect him as one of the Railroad Commissioners of Alabama.

Card From Mr. Johnson

There is a wide prevalence of pneumonia all over Alabama. Near the Pike and Coffee line there have been a large number of deaths lately from the dread disease.

Pneumonia is contagious. The best way to prevent it is to have well ventilated houses and school houses. Keep plenty of air circulating through your house. Keep the body in good, sound condition, and with plenty of fresh air you have nothing to fear.

A few minutes delay in treating some cases of croup, even for a length of time it takes to go for a doctor often proves dangerous. The safe way is to keep Chamberlain's Cough Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by All Dealers.

Pneumonia Raging.

Gov. W. D. Jelks, in may respects one of Alabama's greatest governors, and who was one of the leaders in the great anti-amendment conference comes out strongly for Col. Mallory. He says that as a patriot he cannot be other than for Mallory. He is a great man and always stands for what is best for Alabama, and his action will have wide-spread effect.

An attack of the grip is often followed by a persistent cough, which to many proves a great annoyance. Chamberlain's Cough Remedy has been extensively used and with good success for the relief and cure of this cough. Many cases have been cured after all other remedies had failed. Sold by All Dealers.

Hon. J. E. Pittman Announces.

In this issue of the Clipper appears the announcement of Hon. J. E. Pittman of Beat 17, for Representative of Coffee County. Mr. Pittman needs no introduction at the hands of the Clipper to the people of Coffee County. He is one of the very best farmers in the county, having succeeded in his farming endeavors so well that, although he came to the country with nothing some fifteen years ago, he is a prosperous and well-to-do farmer now.

Like those of Coffee County's best citizens, he was raised in Pike County, coming to Coffee when he first grew up. Mr. Pittman is a broad-gauged man, a fearless man, and a patriot. As a member of the Board of County Commissioners, he made a reputation for ability, and for willingness to do the right thing, even though it be unpleasant.

Mr. Pittman starts in the race with strong support, he proposes to let the people know; as fully as he can, how he feels about issues, and will shortly issue a platform to the voters. In this issue he has a short card giving his views on the most important matters.

Hon. W. H. Warren Announces.

In this issue of the Clipper appears the announcement of Hon. W. H. Warren of Beat 17, for Judge of the Probate Court of Coffee County. Mr. Warren is familiarly known as Mr. "Polk" Warren and until a few years ago, resided in Beat 9, where he was a leader in all matters for the upbuilding of the people.

Mr. Warren has always taken an active and intelligent interest in political matters. For four years he represented this County in the General Assembly. He is a member of the well known family of his name, who stand so well in East Coffee, and who have done so much for the up-

Notice to County Candidates.

In view of the fact that the Democratic Executive Committee of Coffee County has ordered two primary elections for the nominations of candidates for Probate Judge, Sheriff and Circuit Clerk, to be held on March 19, 1910, and April 28, 1910, and in as much as the primary election laws require all candidates for any of said offices, to file with the Chairman of the Democratic Executive Committee, not later than fifteen days next preceding the date of holding such primary election, a declaration of their candidacy, together with the assessment fixed by the Committee, I have deemed it important to call the attention of all persons who are now candidates for any of the above named offices, or who expect to become candidates for either of the said offices, to the provision of the law which requires them to file their declarations of candidacy, and to pay their assessment to the Chairman, by or before Friday, the 4th day of March, 1910, in order to have their names printed on the ballots. It is not long now before that date, and no candidate can afford to neglect this matter, as it is not within the power of the Chairman of the Committee, to permit the filing of such declarations and the payment of such assessment after the 4th day of March, 1910. I shall be glad to furnish any one blanks for this purpose.

Let everyone take notice and be governed accordingly.

This 14th day of February, 1910.

Seven Men Meet Tragic Fate Near Phoenix, Ariz.

Phoenix, Ariz.—Headless of the warning of a foreman in charge of excavating operations along the line of the private motor road from Kelvin to the Ray Copper mines, the motor-man of a gasoline car containing six passengers ran his car close to a hanging fuse of a heavy charge of dynamite, and the car and its seven occupants were blown to atoms.

The foreman had discovered a missed shot in the excavation at noon, and before the motor car came in sight he had relighted the fuse.

Charlotte, N. C.—William McDonald, a negro Baptist preacher, was fired upon three times while kneeling before his congregation at a negro church at Waxhaw, 20 miles south of Charlotte. building and betterment of that section of the County. His sons, his sons-in-law, his brothers, and brothers-in-law, long with himself, go to make up one of the finest family connections in our County.

Mr. Warren has always stood for that which is right as he sees it. It is highly respected by those who know him best. He starts in the race with good support, and will be a strong candidate.

A Statement by Hon. John E. Pittman.

To The Voters of Coffee County:

I am announcing my candidacy for the democratic nomination for Representative for Coffee County. In so doing, I feel that it is not improper for me to say that as the Representative of Coffee County in the next Legislature of Alabama I would favor keeping state-wide prohibition for Alabama.

While I opposed and voted against the recent proposed constitutional amendment, in pursuance of the policy and platform mapped out by the Mounson Conference, I did not then, and do not now, oppose a continuation of the policy of prohibition for Alabama. Some changes, or modification of our present prohibition statutes may be wise or necessary, but I would not favor their repeal and a return of the liquor traffic to Alabama.

There are other important matters upon which I believe the people should know the views of a candidate aspiring to the office of Representative. I desire to say, therefore, that later I will submit to the people of the County, my platform defining my position on these matters. At this time I have deemed it proper to let the people know my views on the vital question now before the people of the State and County.

I now take this method of soliciting the influence and votes of the voters of Coffee County, and I assure them of my hearty appreciation of whatever support they may feel inclined to give me. If elected Representative, I would strive to make a fair and impartial representative of the people of my entire county.

Respectfully,
John E. Pittman.
